

PRESSURE TRANSMITTER

FEATURE

- Widely measure range
- Intelligent circuit board, no moving parts, good performance
- Reverse power protection and instantaneous over current over voltage protection
- Various kinds of output optional
- Intelligent type can set on field site

KPT500 (Pressure Transmitter)

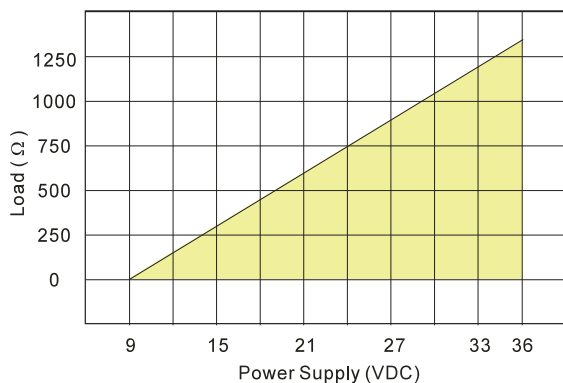

SPECIFICATION

Process Fluid	: Liquid, Gas or Vapor
Measuring Range	: 0-5kPa~100Mpa
Application	: Absolute Pressure, Gauge Pressure, Vacuum
Overload Capacity	: Permitted Overload:1.5 of Sensor Measuring Range Breakdown Pressure:2 of Sensor Measuring Range
Temperature Effect	: 0.03%FS/C(≤ 100 KPa);0.02%FS/C(>100KPa)
Accuracy	: 0.1%
Stability	: 0.2%/year
Working Temperature	: -20~70 °C
Power Supply	: (10~30)VDC, Recommend DC24V
Output	: 4-20mADC, 1-5VDC Three Wire, RS485
Output Load	: 50(U-12) Ω
Insulation Resistance	: >100M Ω @ 50V
Communication	: HART
Cable Entry	: M20*1.5
Display	: Digital Display
Protection	: IP65
Sealing	: All welded or O-ring
O-ring	: Fluororubber, NBR, PTFE
Sensor Material	: Diffuse Silicon Insulated Pressure Transmitter
Sensor diaphragm	: 316L
Pressure Connection	: 316L
Process Connection	: Standard M20*1.5, G1/4

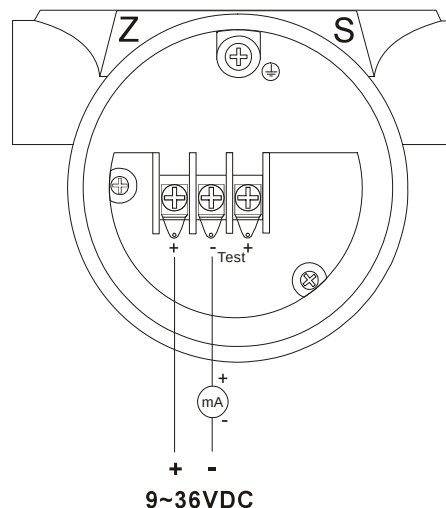

DIMENSION

SUPPLY VOLTAGE VS LOOP LOAD

MODEL SELECTION GUIDE

KPT500

Example : KPT500-G36N-NN

KPT500-	X	X	X	X	-X	X	X	Description
Type	G							Gauge pressure transmitter
	A							Absolute pressure transmitter
Pressure Range	1							0-5Kpa ~ 20 Kpa
	2							0-20Kpa ~70 Kpa
	3							70Kpz ~ 350Kpa
	4							0-200Kpa ~ 700Kpa
	5							0-0.7Mpa ~ 3.5Mpa
	6							0-2.0Mpa ~ 7Mpa
	7							0-7Mpa ~ 35Mpa
	8							0 - 35Mpa ~ 100Mpa
Precess connector material			N					Stainless Steel 304
			6					Stainless Steel 316
Diaphragm Material			N					Stainless Steel 316L
			T					Tantalum
			Z					Other
Process Connections					-N			1/2" NPT
					-B			1/2" BSP
					-Z			Other
Electrical Connections						N		M20 Conduit Threads
						P		1/2" NPT(Female)
						Z		Other
